

Key Questions Concerning The Da Vinci Code To Use In Evangelism

by Rev. Dave Geisler
www.meeKNessandtruth.org

1. What do you think about the DaVinci Code?
2. Why do you think speculation about how Jesus lived stirs so much passion?
3. Did you know that many Christians were persecuted for their beliefs for the first 300 years of the church?

Do you think it is possible that the disciples of Christ could have been willing to die for beliefs they knew were untrue?

4. If Dan Brown is right, how could Christians have wiped away any traces of the real Jesus from both religious and secular literature?
5. There are two pillars of Christianity that are not even questioned by Dan Brown in his book. They are: That God exists and that Jesus really did die on the cross. Furthermore it is a well established fact of history that Jesus' tomb is empty.

Can you think of any way of explaining the fact of the empty tomb and yet believe that Jesus was in fact just a man as Brown claimed in his book?
(See DVC p. 233)

6. Do you think it is possible that Jesus Christ could be something more than what the book portrayed him to be?
7. One of the key questions that Dan Brown does not address is that whether Jesus died willingly or not.

If Jesus did not claim to be the Son of God, why do you think Jesus did not speak up before Pontius Pilate put him to death?

(If you sense they are open to spiritual dialog ask)

8. *Can I share with you why I believe he did this and why it makes a difference?*
